2. Pursuant to Section 7.4, Proposers' Questions, of the RFP, this Addendum One provides answers to question(s) received in response to RFP No: NFP-VDMR-01.

Question #1	One of the requirements listed in the RFP is to have a database management system. Our organization is fully qualified and equipped to provide the services and our staff is trained to use these database management systems: nonetheless, we would like to know whether the County has a preference in which software brand to use on this program. If so, could you please list the systems?
-------------	---

Answer #1	The County does not have a preference for any particular software system as long as the system can record all the required information listed in Section 10.2 of the Statement of Work.
